

We are a Beekeeping Export Group of Santa Fe Province -Argentina, made up of several Cooperatives from different locations within the province, which develop and promote honey production based on strict quality protocols and traceability that make the entire chain of products, from the hive to the final consumer. Within our exportable offer we have bulk honeys and value-added products such as conventional and organic fractionated honeys.

One of our 4  
plants located in  
Maria Juana  
where we get  
meadow honey.

## Certifications: HACCP – Organic – Kosher – Halal

## **Modern technology and facilities: Homogenized, Pasteurized, Creamed**

**We fractionate the honeys in different presentations and volumes according to the client's requirements: bulk 300 kg, drum up to 25 kg, for retail channel / final consumer 1000, 500, 250, 20 gr or whatever you need.**

**Fractionated honeys in our plant of San Genaro.  
Our own brands & we also do “white label” for our  
clients.**

**The best honey from the islands, natural, organic...honey from our plant in San Javier.**

# Multifloral and Monofloral Honeys. Conventional and organic honey of our plant in Malabrigo, from forest and meadow.

## The best honey from the meadow!
